RE: Emerging Technologies Associates, Inc.

To Whom It May Concern;

PG&E's Customer Energy Efficiency (CEE) group has used the services of ETA, and specifically Daryl DeJean, during our recent program cycle. Daryl and his team lead several "Emerging Technology" lighting projects and managed the projects from inception, through completion.

The projects were well conceived, designed, and executed. Both internal and external clients have complemented me on the professional management of these projects. The projects were completed on time, and project reports well written (posted to [www.etcc-ca.com](http://www.etcc-ca.com)).

I look forward to the opportunity of working with ETA and Daryl again in this upcoming program cycle and highly recommend him to others.

Sincerely;
